💼 Employment

Oracle | NetSuite   2016 - 2020
Senior Web Developer

- Helped build over a dozen full-stack eCommerce web applications using the Single Page Application model for a variety of clients.
- Implemented completely new custom features leveraging the SuiteCommerce Advanced (SCA) eCommerce framework using development best practices.
- Last worked on software engineering team efficiencies aimed at improving team throughput, code/config migration, and automating developer workflow.
- Promoted from Associate to Staff to Senior during my tenure.

🎓 Education

The University of Texas at Austin   2010 - 2015
Computer Science

🖥 Projects
